

I hope you are well and continuing to stay safe.

As you will know, our staff migrated back to office working in July and we re-opened to members by appointment only.

Unfortunately, as you will be aware, Covid-19 has continued to take its toll on our communities across the country and indeed the world and governments have been forced to deploy additional restrictions on our daily lives.

In light of the recent government guidance, we have reviewed our arrangements and for the sake of everyone's safety, we have taken the decision to close the office and have all staff return to home working for the next two weeks at least. You can still call us or get in touch through our website or smartphone App.

This also of course means that members will not be able to visit our office, however we can still offer the opportunity to have a face to face discussion remotely with staff using video calls should anyone require one.

We remain committed to being here for you and are very much open for business as usual. We are continuing to process all loan and savings requests as normal and our online service and App are available 24/7.

It's encouraging to see that many of you are looking ahead and continuing to borrow for home improvements and getting organised early for Christmas!

If you want to borrow from us just visit our website at

www.scottishpolicecu.co.uk/loan/

or call us on 0141 771 1314.

Please don't hesitate to get in touch to discuss any issues or questions you may have in relation to your finances, our staff are here to help.

Thank you.

George Nedley
Chief Executive
